#### **DETAILED ACTION**

### Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 56-62, and 64 are rejected under 35 U.S.C. 103(a) as being unpatentable over French reference #1,398,975 in view of German reference #3,513,539. French '975 discloses the claimed invention except for the cut tyres. German '539 teaches that it is known to provide a retaining wall with cut tyres as shown in figure 1. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide cut tyres, as taught by German '539 in order to facilitate building of a retaining wall.
- 3. Claims 65-71 are rejected under 35 U.S.C. 103(a) as being unpatentable over French reference #1,398,975 in view of German reference #3,829,615. French '975 discloses the claimed invention except for the tyres being cut in a plane between opposing side walls. German '615 teaches that it is known to provide a retaining wall with the tyres being cut in a plane between opposing side walls as shown in figure 1 and stated in the abstract. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide tyres being cut in a plane between opposing side walls, as taught by German '615 in order to facilitate building of a retaining wall.

## Allowable Subject Matter

- 4. Claims 11-17, 19-42, 44-48, and 51-55 are allowed.
- 5. Claims 63 and 72 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
